Amharic - Native, English - Advanced

About

I am a passionate individual with a diverse educational background. I hold a degree in Software Engineering from Wollo University and a degree in Management from Bluemark College. I am deeply committed to leveraging my software development knowledge to contribute positively to society. Coding is not just a profession but a personal passion, and I find immense satisfaction in solving complex problems through programming. Besides technical aptitude, I possess excellent communication skills, enabling me to connect with others effortlessly and understand their perspectives. I am dedicated to making a meaningful impact in the world of software development.
